North Otago Sustainable Land Management

Collectively enhancing North Otago's Land, Water and Community Resources

OUR JOURNEY....

- North Otago Sustainable Land Management
- Building a Successful Catchment Group
- Shifting Behaviours on Farm
- Building Connectivity with Stakeholders

NOSLAM HISTORY

1980's – Survivors, Droughts, Soil loss, low production, unsustainable

1990's – NOSLAM - Soil conservation, Minimum tillage, Lucerne, Irrigation (NOIC)

Now – Water quality

Future - GHG, Biodiversity

CONTINUE TO ADAPT AND IMPROVE

NOSLAM STRATEGY

CONNECTIVITY

Building understanding between stakeholders in North Otago in the area of sustainable land use. To support, enable and facilitate effective engagement between farmers, industry stakeholders and community groups.

ON FARM CHANGE

Promote on farm change to improve water quality where needed

SCIENCE AND MONITORING

To gather water quality data over a wide range of North Otago waterways and to direct new science into answering questions about our land and water.

CONNECTING WITH FARMERS

WHAT WORKS

- SMALL GROUPS – PODS, RELEVANCE, COMFORTABLE ENVIRONMENT, 1-2-1
- BREAKDOWN THE ISSUE INTO MANAGEABLE AND ACHIEVABLE CHUNKS
- USE EXPERTS THAT KNOW THE AREA/SITUATION
- DO NOT WASTE TIME WITH MEETINGS FOR MEETINGS SAKE
- GOOD SCIENCE
- PAID CO-ORDINATOR

ALWAYS OFFER FOOD!!

WHAT WORKS..... ENGAGING WITH STAKEHOLDERS

NON-POLITICAL

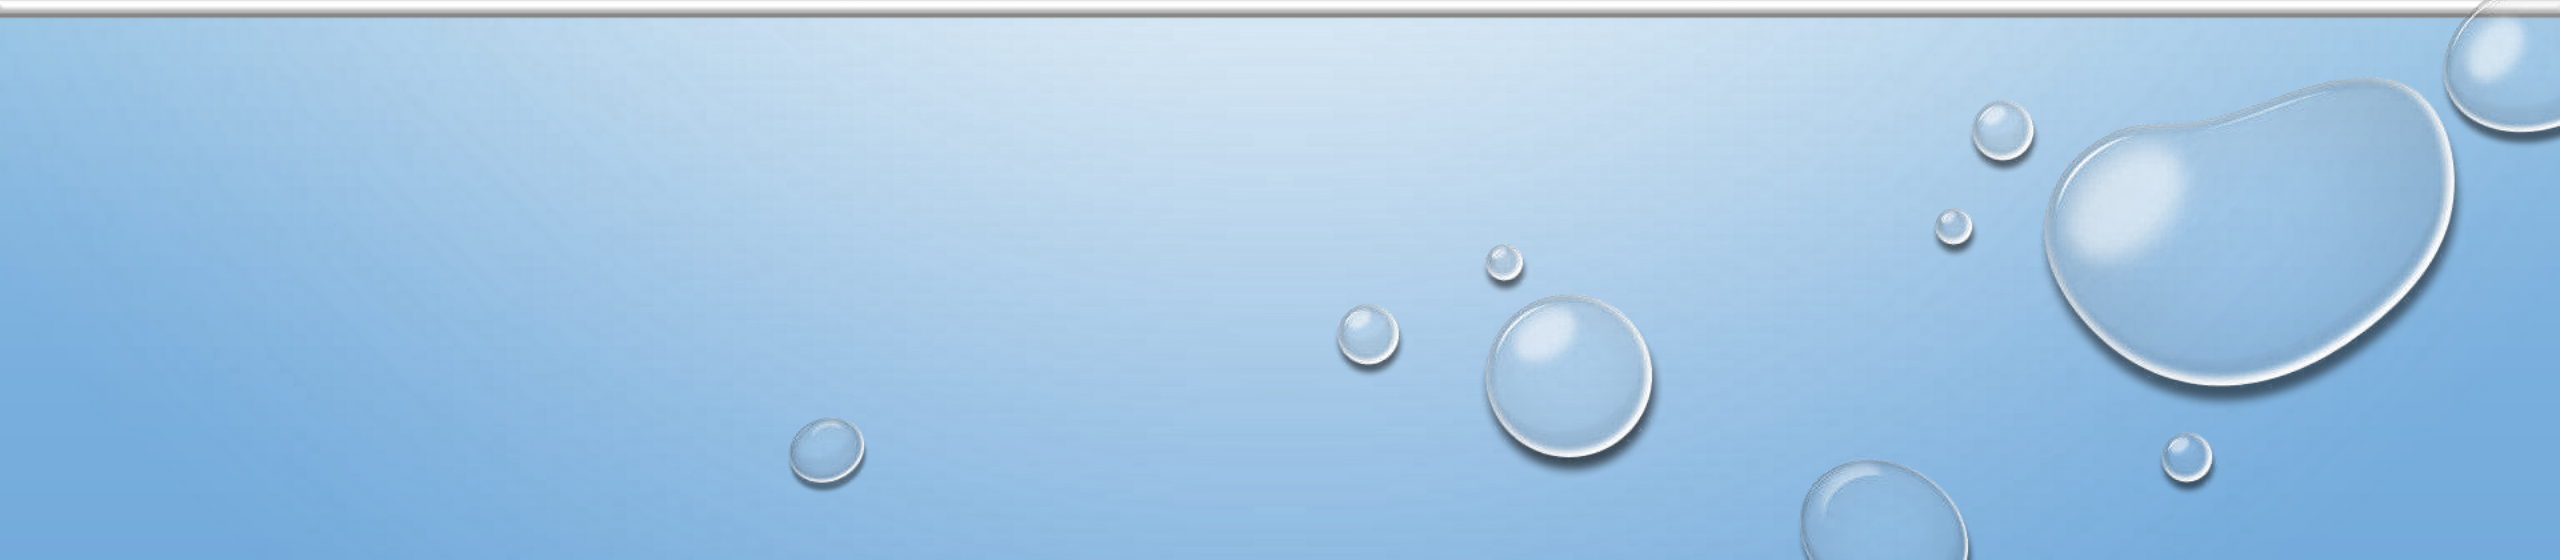

OPEN DOOR POLICY

WORKING TOGETHER ON COMMON GOALS

INVOLVE KIDS.

DO STUFF TOGETHER.
